# Mobile App Engineer - React Native

<https://anthonylasserre.me/>

5 years of mobile app development since 2017

## Experiences

### Mobile App Engineer - React Native

Since July 2021 | Luko - Paris (full remote)

<https://luko.eu/>

Insurance that has no secrets for you. Discover the no-brainer insurance for your home: clear and flexible contracts, twice as fast refunds, and a 100% digital and transparent model. Stop wasting time and money, get covered in 2 minutes.

**App Core** guild is composed of 8 Mobile App Engineers, a QA Engineer and a Staff Engineer.

**User Life** tribe (squad Personalization) is composed of 3 Mobile App Engineers, a Lead Engineer, a Product Owner, a Designer, a Backend developer.

- Refactor old Contract amends and implement the new one with some backend updates. New contract coverages and options management. Giving more freedom for the user.
  - Refactor old Contract termination system and implement the new one with some backend updates.
  - Support generations to build new certificates instantly
  - Develop new features to educate the user on the app usage and the contract understanding. Creating the Welcome Experience flow, Giveback flow to chose a Charity and the Contract Education linked directly to the CMS with some articles.
  - Upgrade Stripe to better support payments and warn the user in case of payment irregularities
  - Link CMS Backend content to display carousels, highlights, articles...
  - Support new countries after merging Spain & Germany. New products, new languages.
  - Contribute once a week to App Core topics
  - Open-source contributions mainly with an ESLint custom plugin
  - Refactoring and removing the legacy part
  - Present tech talks to the team
  - SLI/SLOs definition
  - Tracking events implementation in collaboration with Data Engineer
-
